HOUSEHOLD ENUMERATION - ADULTS

>sb2< Before I can determine if I need to interview someone in your household, I need to get some basic information about the adult household members and whether or not they smoke. This part of the interview should take 5 minutes or less.

All answers are confidential. Your help is voluntary, but is very important. You can skip any of the questions you like.

This interview may be monitored for quality control purposes.

In studies like this, households are sometimes grouped according to income. I'm going to read you some categories. Please stop me when I get to the one that best describes your total household income last year. That means income before taxes from all sources, such as salaries, interest, retirement or any other source for all household members.

PERMISSION TO INTERVIEW CHILDREN 12-17 YEARS OF AGE

>IGUA<

As you probably know, tobacco use is a big problem among teenagers. We would like to talk to about 4000 young people between the ages of 12 and 17 now, and then again after two years, so that we can better understand their feelings about smoking and learn what might be done to prevent more teens from starting to smoke. All responses are confidential. Your child(ren) can skip any question that they do not want to answer. We would like permission to explain the research study to the child(ren) and to ask if they are willing to be interviewed.

But first are you the parent/guardian of (any of) these child(ren)?

That's great. After we complete the interview, we'd like to ask your child(ren) for their name and address so we can recontact them in two years for a follow-up interview.

We'd like to send your child(ren) a small thank-you gift. We will ask them for their name and address so that we can mail them the gift and also to let them know when we will be calling again in two years. This information will be kept confidential and will be kept separate from the answers they give on the interview. If your child(ren) would rather not give their name and address, they don't have to. Is it okay with you if we ask them?
